Illegal Alien Impact

O n the heels of an article by Legislative Chair, Carolyn Hebert in the March issue of *The Wave,* the following was reported in the Los Angeles Times Newspaper further demonstrating how illegal aliens have impacted one state's economy. Whether you are a Democrat or Republican, these statistics are eye openers of what is occurring in just one state – California. It is astonishing to say the least!

1 40% of all workers in Los Angles County, that has 10.2 million people, are working for cash and not paying taxes. This is because most are illegal immigrants working without a green card. (Donald Trump was right!)

2 95% of warrants issued in Los Angeles for murders are for illegal aliens.

3 75% of people on the most wanted list in Los Angeles are illegal aliens.

4 Over 2/3 of all births in Los Angeles County are to illegal alien Mexicans on Medi-Cal. These births are paid for by taxpayers.

5 Nearly 35% of all inmates in California detention centers are Mexican nationals who are here illegally.

6 Over 300,000 illegal aliens in Los Angeles County are living in garages.

7 The FBI reports half of all gang members in Los Angeles are most likely illegal aliens from south of the border.

8 Nearly 60% of all occupants of HUD properties are illegal aliens.

9 21 radio stations in Los Angeles broadcast in Spanish.

10 In Los Angeles County, 5.1 million people speak English while 3.9 million speak Spanish. And, less than 2% of illegal aliens pick crops, while 29% are on welfare.

Over 70% of the United States' annual population growth, and over 90% of growth in California, Florida, and New York is a result of immigration. 29% of inmates in federal prisons are illegal aliens.

How can you help?

Send copies of this letter to at least two other people. Sending it to one hundred would be even better.

California is only one State. If this doesn't open your eyes about the impact of Illegal Aliens in our country, then nothing will. And some wonder why Nancy Pelosi wants them to become voters!
