

## Why Ford came forward

Behind the right hand held sternly in the air during the swearing-in ceremony to tell the truth, there are four compelling reasons why Dr. Ford came forward with her "*revelations*."

**1** She owns a major portion of the company that makes the morning after abortion pill and she is afraid *Kavanaugh* will overturn Roe vs Wade, therefore making her million dollar empire go caput.

**2** She's a professor at the same college (Palo Alto U) where *Diane Feinstein's* husband, *Richard Blum*, is on the board of directors. She has worked with Blum on the "*resist Trump*" movement for two years.

**3** Dr. Blasey-Ford's brother, *Tom Blasey*, is business partners with *Peter Strzok's* cousin, *Jill Strzok*, for a company called *Exiles Inc.* Enough said there.

**4** *Feinstein* and *Chuck Schumer* appointed lawyers to set up three GoFundMe pages for her the week **BEFORE** she testified, which are currently up to over a million dollars for her to keep as payment for her testimony. I can go on if you would like. **Don't believe for one minute this "professor" came out of nowhere.**
